EDUCATION

D Y Patil College Of Engineering
B.E. in Computer Science

Akurdi, Pune
Expected Graduation, May 2027

SKILLS

Languages: Java, JavaScript, C++, SQL

Frontend: React.js, Next.js, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT

Database: MongoDB, SQL, PostgreSQL (basics), Mongoose

Tools: Git, GitHub, Cloudinary, Multer, Vercel, Render, Redux Toolkit, Postman

Professional Summary

Full-Stack MERN Intern with hands-on experience building and deploying scalable web applications using React, Node.js, Express, and MongoDB. Skilled in implementing JWT-based authentication, RESTful APIs, role-based access control, and media handling with Cloudinary. Strong understanding of backend architecture, database modeling, and secure API design, with a focus on writing clean, modular, and maintainable code.

PROJECTS

Artisthambh

Tech Stack: React.js, Node.js, Express.js, MongoDB, Mongoose, JWT, Cloudinary, Multer

- Developed a full-stack MERN application connecting artists and users through a centralized platform.
- Implemented JWT-based authentication and authorization for users and artists with protected routes.
- Built RESTful APIs using Express.js for user management, artist profiles, listings, and comments.
- Integrated Cloudinary and Multer for secure image uploads and media handling.
- Used Mongoose schemas and relationships for scalable data modeling.
- Implemented middleware-based access control for secure API endpoints.
- Followed modular backend architecture with controllers, models, and middleware separation.

Live Demo: <https://nextcms-opal.vercel.app/>

Airbnb Clone

- Developed a full-stack Airbnb-inspired web application using Node.js, Express, MongoDB, and EJS implementing authentication, CRUD property listings, reviews, authorization middleware, and MVC architecture.

ACTIVITIES

- Won Second Place in Department-Level Project Based Learning Competition.
- Participated in SPPU Avishkar 2025.
